

Cobwebb Barcode

the comprehensive, trusted IBM i solution
for creating industry standard barcode labels

**Cobwebb
Barcode
positively
affects business
profitability,
while delivering
measurable
enhancements**

COBWEBB BARCODE //

is a simple, comprehensive and reliable tool for the automatic creation of barcodes for IBM i. Whether printing labels or other documentation such as, despatch notes, shipping manifests or invoices, Cobwebb Barcode is the tool to use.

Benefits

- Automatic creation of barcodes from IBM i spooled files
- No additional hardware to configure
 - Cobwebb Barcode is an IBM i native application
- Quickly design and create barcode labels such as Odette, VDA, UPS, DHL, etc. using the Cobwebb Designer

- Highly customisable
- Seamlessly works alongside your WMS or ERP System
- No additional IBM i software is required
- Reuse existing label designs
- Proven industry solution for over 15 years

Barcode labels created using Cobwebb Barcode may be printed on plain paper using a laser printer or a suitable thermal printer (such as Zebra, Intermec, Datamax or Printronix, etc.).

If all the data you require for your label is not on the print file, Cobwebb Barcode can automatically retrieve the information from a database and add it, thus removing the need for modifying your core system.

PRODUCT // COBWEBB BARCODE

Features

Produces barcodes in multiple formats

Merges text, barcode and graphical information

Cobwebb Designer application for designing labels

Reformats and prints documents at the same time (incorporates functions that would previously have required two separate products.)

Laser or thermal generated barcode labels

Generates barcodes from existing documents

Incorporates preamble and postamble keystroke commands

Fully integrated with Cobwebb Document Management

Cobwebb Barcode will generate barcodes of any type supported by the IBM Barcode Tower, including common codes such as:

- Code 128, AIM USS-128
- Code 39 (3-of-9 Code)
- MHI/AIM USD-3
- Data Matrix
- EAN-13 (includes JAN-standard)
- MaxiCode
- QR Code
- UPC/CGPC
