Cobwebb Communications Ltd Celebrates 40 Years of Innovation in Business Automation

Tonbridge, Kent, UK – In 2026, Cobwebb Communications Ltd proudly marks its 40th anniversary, celebrating four decades of helping organisations around the world streamline complex business processes and deliver smarter, more efficient ways of working.

Founded in 1986 by Peter Webb, Cobwebb has grown from its early days developing solutions for IBM mid-range servers into a respected provider of comprehensive document and process automation software. Over the last 40 years, the company has built a reputation for reliable technology, deep industry expertise, and a human-centred approach that places long-term customer success at its core.

Cobwebb's mission has always been clear: to help businesses reduce costs and increase efficiency through innovative software solutions and unmatched support. Its broad suite of products spans document capture, AI, OCR, multi channel workflow, digital transformation tools, robotic process automation and mobile data capture — all designed to automate manual tasks and improve the way organisations work.

Cobwebb has continued to evolve and expand. A strategic acquisition of Pacific Solutions International Ltd. further strengthens the company's portfolio in enterprise content management and business process automation, enhancing its ability to deliver end-to-end solutions for complex business needs.

“Reaching 40 years in business is a real milestone for Cobwebb,” said Daniel Webb, Managing Director. “Our success is built on strong partnerships, innovation rooted in real customer needs, and a commitment to making everyday business processes simpler and more enjoyable for all. As AI technologies continue to develop, we see enormous potential to help our customers automate more intelligently, make better decisions, and gain even greater value from their information.”

Cobwebb's ethos remains steadfast: solving customer problems with dependable and efficient technology, delivered with a level of service that fosters long-lasting relationships. As the company celebrates this milestone, it looks forward to continuing its role as a trusted partner on its clients' digital transformation journeys — including helping them take advantage of emerging technologies such as AI-driven automation.

About Cobwebb Communications Ltd
